Professional Summary

Content marketing professional with 4 years of experience in editorial strategy, **corporate storytelling**, **positioning**, and **brand consistency**. I plan editorial calendars, write copy that adapts tone of voice to different audiences, and use data to inform content decisions. At Agromai, an agribusiness SaaS platform, I led the redesign of the company website (~15% increase in interactions) and maintained narrative consistency and brand authority across product and published content. As a freelance marketer for Chale Atelier, I plan the editorial calendar and ran a Meta Ads campaign that generated 525 new followers and reached 18.9K accounts. My background in UX Writing and Product Design gives me a structural perspective that is uncommon among content professionals. Advanced English (C1).

Professional Experience

Mid-Level UX Designer | Agromai

Apr 2026 – Aug 2026

- Organized the **editorial calendar** and produced social media content (Instagram) for an agribusiness **SaaS** platform (videos, cards, copy), aligned with marketing and business goals.
- Ensured the quality, consistency, and cadence of the brand's **official channels** on YouTube, Instagram, the company website, and the product platform.
- Led the company website redesign end to end, one of my main **strategic case studies**: benchmark research, visual direction, and delivery of production-ready code via AI, resulting in a ~15% increase in interactions and clicks.
- Applied **UX Writing** to the conversational script of a WhatsApp chatbot for issuing digital certificates, focusing on tone of voice and clarity of communication.

UX Design Intern · Globalization | SAP

Aug 2025 – Apr 2026

- Structured conversations and flows for Joule, SAP's AI assistant, ensuring clarity and consistency of communication.
- Conducted qualitative and quantitative research for SF Pay (interviews, usability testing, user observation), translating findings into wireframes and prototypes validated with the PM and development team.
- Facilitated a Figma prototyping workshop for the team, helping advance design and research best practices.

Business AI Intern · Business AI Team | SAP

Dec 2024 – Aug 2025

- Created and structured Joule **strategic case studies** for client presentations, turning technical deliverables into clear, market-relevant narratives.
- Managed the Torneo de Innovación 2025 end to end: created the **email marketing** strategy to promote the event, aligned 5+ global stakeholders, and delivered 100% of milestones on time.
- Created the Design System for the event's **institutional campaign**, including all email assets, the registration website, and asset covers.

Marketing & Events Intern · Labs Events Team | SAP

Apr 2024 – Dec 2024

- Contributed to **building the narrative** of SAP events, helping define themes, concepts, guests, agendas, and editorial direction aligned with brand positioning.
- Collaborated with **cross-functional** teams to ensure solutions met creative and technical requirements across web and digital channels.
- Handled **press relations**, **press releases**, and **PR** within the events team, supporting external corporate communications.

Product Marketing Intern | Dell

Jul 2023 – Mar 2024

- Designed interfaces and materials supporting the **sales funnel** of the Latin America sales team, aligning brand experience and visual consistency across channels.
- Mapped and redesigned operational workflows for the Latin America Field Marketing team, reducing manual rework by ~20% through clear documentation and standardized processes.

Marketing Consultant | PS Júnior Consultoria

Sep 2022 – Apr 2023

- Worked in **inbound marketing**: produced lead-generation content and conducted keyword research (SEO), driving a 10% increase in leads.
